

**WORLD WIDE SIRES**  
TRADING AS GLOBAL SIRES PTY LTD

April 2010

### ABV Notes

Home grown and international sires lead World Wide Sires into the top end of the Australian Breeding Values (ABV's) released today.

World Wide Sires bulls claimed the number one and two spots of the ABVi list with the famous OMAN clearly leading the way by 49 APR points. A household name, OMAN, having produced over one million doses of semen remains in demand due to his outstanding health traits and phenomenal calving ease. Proving his ability to breed on, OMAN sons are prolific in index lists the world over.

Long-Langs Oman Oman (MAN-O-MAN) leads the packs of OMAN sons, comfortably claiming the number two position on the list. MAN-O-MAN is a popular flush sire and features on many bull studs sire father lists around the world.

Farmer favourite in Australia and around the world, Regancrest-MR Drham Sam graduated with his first Australian proof at number 19 on the ABV list.

Australian milking MR SAM daughters didn't let the bull down, confirming his international reputation for overall type with outstanding udders. His initial ABV for overall type is 111 while mammary system is at 112. His production proof shows moderate milk with big positives for butterfat and protein. MR SAM now has daughters milking in 15 countries around the world and his first sons graduated this month.

Set to follow in his fathers footsteps, is new sire O-Bee KROWN (MR SAM x BW Marshall). Proven in Canada and from the same cow family as OMAN, KROWN has demanded attention since his release. His type proof at +12 indicates daughters with dairy strength, good udders and outstanding feet and legs. He will be available in Australia for autumn mating.

Kaarmona JURACE is flying the WWS flag amongst the top Jerseys with his now reliable proof graduating at number five in the list. Australian bred and proven, with an outstanding and balanced proof, JURACE is set to be a very popular mating choice this season. Consistently leaving daughters with added stature, strength and capacity with exceptional rear udders, JURACE daughters are well-liked herd members. His scores of 105, 105 and 106 for milking speed, temperament and likeability respectively confirm his popularity. A big milk transmitter, JURACE has the highest milk ABV in the top 20. He is readily available.
